Wineries and Breweries

TESTIMONIALS

“The Rose family have worked with the team at Apollo Projects for over 15 years. In that time the Wairau River wine business had grown rapidly meaning repeated expansions to our winery and facilities. We have built a long standing business and personal relationships with the staff and they are our first choice for all our building projects. We would have no hesitation in recommending them as specialists in the wine industry.”

– Lindsay Parkinson, CEO/General Manager, Wairau River Wines

“It’s been a dream... There’s nothing quite like building exactly what you want.”

– David Babich, General Manager, Babich Wines

**WE PROMISE
CERTAINTY.
TRUSTED EXPERTISE
FROM A PROVEN
SPECIALIST**

“The Apollo staff are highly motivated and diversely experienced, and take the time to identify and understand the real needs of their clients. We find it refreshing to work with like-minded people who challenge conventional thinking, and for whom innovations, and the drive to provide exceptional service and results, are non-negotiable.”

– Will Lomax, Managing Director, Structex

AND BUILD - BEING
INVOLVED IN THE
EARLY DESIGN AND
MANAGING THE FULL
CONSTRUCTION
PROCESS IS WHAT SETS
US APART**

Apollo is committed to providing comprehensive, innovative and industry-leading design and construction services to the winery sector.

We have played a key role in the development of the New Zealand wine industry, having worked on projects for many of the major producers in New Zealand's iconic Marlborough, Hawke's Bay and Central Otago regions, as well as a number of smaller boutique wineries throughout the country and off-shore in Canada. We are proud to have designed and built full scale wineries for industry-leading brands such as Lion Co., Yealands, Wairau River, Wither Hills, Babich and Indevin.

Our experience in the design and construction of wineries translates easily into the brewery sector. Our unique expertise in the integration of process services and understanding of the factors which create a functional and efficient production facility have seen us involved in the design management of a number of craft brewery projects.

What sets Apollo apart is our leading-edge design and construction services, including the design, selection, procurement and installation of:

- All buildings and services
- All process systems including presses, receival bins, crushers/destemmers, waste conveyors, filters, must chillers, pumps
- All services including heating and cooling systems, gases, compressed air, generator/ electricity works, boilers and all process pipework
- Tanks, tank access systems and catwalks
- Waste water treatment systems.

Foresight today creates efficiency tomorrow. Take the important first step towards intelligent design solutions and a proven construction approach from an industry specialist.

APOLLO'S PROMISE

- Specialised – detailed understanding of every aspect of design and delivery
- Total Project Solution – from concept design to construction and facility handover
- Industry-leading – design and procurement methodologies
- Client Focussed - the client's objectives lead the design
- Innovative Thinking – challenging the status quo
- Trust and Expertise – our reputation is everything
- Track Record – for delivery of projects on time and within budget
