Apollo
PROJECTS

We design and build modern retail and commercial spaces that excite.

Whether it's a boutique retail village, a multi-level high rise or a cafe, bar and restaurant, we strive for efficiency and excellence with every project.

Apollo Projects has delivered many retail and commercial spaces across Aotearoa, and we know that smart facility design is a big factor in completing projects on time and to budget.

We've delivered outstanding buildings for the likes of New Zealand Police, Orion New Zealand, Casual and Country Homestore, and CLAAS Harvest Centre.

We start by carefully planning what the site and building will need. Layout, flooring, lighting and electrical, storage designs and fire safety needs are all unique to each client, and our experienced team can identify what will work before construction even starts.

For example, we talk to clients about the way vehicles will access and move around the site, how external yards should operate, and what stormwater or wastewater systems may be needed.

We know that many of today's businesses are looking for sustainability and efficiency in their buildings that is good for the environment and their back pocket. We're specialists in building sustainable facilities and can develop a tailored design that delivers long-term efficiencies for your office, retail or commercial space.

Open the doors to the retail or commercial building you've always wanted, with Apollo Projects.

Glenburn Group

Casual and Country

Your trust is everything to us.

Apollo Projects has been delivering stunning facilities for organisations across Aotearoa since 2001. Our years of experience and highly skilled team ensure your building performs at its best, includes sustainable design, and is a project you can be proud to own.

When our founding directors, Craig Waghorn and Paul Lloyd started Apollo, they were determined to do things differently. They wanted to partner with clients from the very start and take peoples' building ambitions from concept all the way to reality – something the industry hadn't been doing.

We've grown a lot since those early days, but we've never lost sight of what matters most to us – building trusting relationships with the people we serve. It's central to the way we work.

Apollo Projects is different simply because we do the mahi as your partner and use our expertise to ensure your completed facility does what it should, on time and within budget.

It's our belief that a client's trust is everything, and we are as committed to this today as we were the day it all began.

Ngāi Tahu Seafood

We raise the bar and lead the way.

At Apollo Projects, we've never been afraid to raise the bar even higher and set new standards for what is possible. For us, success isn't something you leave to chance. We believe that the best buildings start with a solid foundation – their design.

Unlike other construction companies, we'll partner with you from the very start to ensure your design works for you. This means getting involved in your project at the beginning and taking the journey with you right up until we hand you the keys.

We listen to your needs, talk to the right trades early, and craft innovative solutions that ensure your building performs as it should. It's a way of working that reduces the risk of your project needing costly design changes down the track.

Our experts know what works and what doesn't, and our partnerships with key consultants and contractors ensure you're getting competitive prices, quality and performance, every time.

Talk to us today about making your project a reality.

Casual and Country

"Our new Waikato dealership was our first building with Apollo Projects. They were outstanding to work with. On time, and on budget, with full transparency throughout the process. We will certainly be using them again."

Richard Wilson, Landpower Group Chief Executive Officer
